

Where ideas work

**Ministry of Land, Water and Resource Stewardship
Burns Lake, Smithers, Terrace (Hybrid)**

Flexible work options are available; this position may be able to work up to 2 days at home per week subject to an approved telework agreement.

Ecosystem Biologist

\$73,855.42 - \$84,134.34 annually, plus \$36.53 bi-weekly isolation allowance for Smithers

The Ministry of Land, Water and Resource Stewardship is accountable for integrated land and natural resource management, including objective setting for land and marine environments, effectively managing cumulative effects and advancing reconciliation with Indigenous Peoples, environmental sustainability and economic growth.

The Ecosystem Biologist will work within the Skeena Ecosystem Section to develop and implement ecosystem conservation, restoration and enhancement projects, provide expert advice to decision-makers and develop objectives, mitigation and management strategies.

The BC Public Service is committed to creating a [diverse workplace](#) to represent the population we serve and to better meet the needs of our citizens. Consider joining our team and being part of an innovative, inclusive and rewarding workplace.

Qualifications for this role include:

- Undergraduate Degree or higher in biological sciences or equivalent (e.g., natural resource management, ecology, zoology, hydrology, forestry, etc) and 2 years of related experience*
- Registered (or immediately eligible) as a Registered Professional Biologist (RP Bio) in B.C. with the College of Applied Biology within six months of employment.
 - Note: Immediately eligible is defined as being registered as a Professional Biologist (RP Bio) with the College of Applied Biology within 6 months of appointment. Confirmation of registration/eligibility will be required before an offer of employment can be confirmed. If you are not currently registered, advise how you have confirmed with the CAB that you are immediately eligible.
- *2 years of Related Experience in each of the following, or a combination totalling 2 years:
- Experience in conducting environmental monitoring and assessments.
- Experience in field-based biological sampling, analysis and reporting.
- Experience providing advice within a regulatory regime.
- Experience collaborating and/or consulting with First Nations on resource management issues.
