

Environmental Project Manager – Vancouver BC

What if you could work alongside inspiring scientists, leaders, and with a diverse group of people working towards a common goal? Are you looking for a place where you can be you and a place where you can thrive? Triton might be just what you're looking for!

THE OPPORTUNITY

Triton Environmental Consultants Ltd. ("Triton") is seeking highly motivated and enthusiastic **Environmental Project Manager**, to join a well-established team of environmental professionals in our Vancouver office and be part of exciting ongoing projects that are integral to building the local and provincial community.

The successful candidate will support the project management and technical team in Vancouver. Our project managers are the cornerstone of our company and are committed to outstanding client service. In this role you will be responsible for managing the on-time and on-budget delivery of projects and providing mentorship to more junior staff. Our client base ranges from regional clients to multi-national oil & gas companies, to government, First Nations, power management, and transportation firms.

Responsibilities include, but are not limited to the following:

- Planning, organizing, and managing a diverse array of projects, people, and tasks;
- Understanding and managing project revenue;
- Liaising and negotiating with other partners, clients, regulators, contractors, and sub-contractors;
- Writing high-quality reports, cost estimates, and proposals;
- Creating project status reports and maintaining project documentation;
- Leading technical teams to ensure the quality, cost, and timeliness of deliverables;
- Contributing specialist expertise to multi-disciplinary projects;
- Providing mentorship and training for our environmental professional team;
- Providing excellent service to existing clients and maintaining those relationships;
- Supporting corporate business development initiatives;
- Ensuring client's and Triton's safety standards are maintained or exceeded; and
- Working collaboratively within Triton corporate culture.

SKILLS AND QUALIFICATIONS

- Degree or diploma in a related field (environmental science, biology, agronomy, ecology);
- Knowledge of and experience with relevant federal and provincial legislation, environmental standards, regulations and guidelines;
- Experience with project management, leading projects, as well as leading project teams (i.e., budgeting, project tracking, cost-accounting and scope control) and with the leadership and supervision of project teams. Direct experience in an environmental consulting firm would be an asset;
- A quick learner, easily adapting to new software applications, systems, and business processes;
- Effective writing skills, and ability to produce meaningful reports and proposals;
- Superbly organized and self-managed, with a collaborative working style;

- Strong problem solver able to address challenges with effective solutions that improve systems and/or relationships, and with the ability to think outside the box;
- Accreditation or eligibility for accreditation with professional governing body recognized in BC (R.P. Bio, P.Ag., ASCT.) is an asset;
- Valid driver's license from a Canadian province or Territory acceptable for driving alone and with passengers in a work setting.

HOW TO APPLY

If this opportunity sounds like you, and you are serious about joining a progressive team of environmental consultants, please apply with a resume and cover letter.

Please directly apply online and to Triton's career company website, found at the following link: [Environmental Project Manager – Vancouver BC - Triton Environmental Consultants - Career Page \(applytojob.com\)](https://www.applytojob.com)

SCHEDULE

This is a flexible position that can be based out of our corporate office in downtown Vancouver, at home, or a hybrid. While we encourage staff to come into the office when they can to collaborate with the team in person, this is not a requirement.

COMPENSATION

The compensation is dependent upon candidate experience and qualifications. The pay range is yet to be determined and could be \$80,000.00 - \$115,000.00.

CLOSING DATE

This posting will remain active until the position has been filled.

About Triton Environmental Consultants Ltd.:

Triton is an environmental consulting firm with over 30 years of experience responding to the environmental needs of resource developers across all sectors, as well as all levels of government. We have deep roots in our communities, strong relationships with clients and regulators, and a track record of helping projects get built responsibly. Triton is known for being technically strong and pragmatic in its approach and having a safety-focused and people-first culture. Triton's multi-disciplinary team comprises environmental professionals specializing in aquatic and terrestrial biology, soil science, vegetation ecology, environmental assessment, environmental auditing, environmental monitoring/inspection, and resource management. We apply this wide range of expertise in providing practical environmental solutions to our clients. Triton has offices in Vancouver, Vernon, Kamloops, Prince George, Terrace, Kitimat, Prince Rupert, Calgary, Edmonton, Regina, and is now expanding to Guelph, Saskatoon, and Halifax.

Triton is growing and looking for talented professionals to support our continued growth. In addition to a challenging and supportive working environment and a management team dedicated to promoting your personal and professional development, Triton offers:

- Competitive total compensation package, including paid vacation and overtime pay;
- Fully compensated professional dues and related mandatory conferences or workshops;
- A comprehensive benefits package, including medical, dental, prescription drug, life insurance, pension matching, and a Health Spending Account; and
- Financial support for continued education and/or professional growth opportunities
