

Position: Biologist (Multiple Positions)

Location: Prince Rupert or Terrace

Gitxaala Environmental Services (GES) is a coastal based consultancy, woven into the local ecology and communities of British Columbia's Pacific Coast. Our core values are based on science, collaboration, inclusion. GES team members enjoy spending time outdoors whether working or recreating. We value candidates who have a keen desire for the outdoors and actively enjoy outdoor recreation (i.e. skiing, mountain biking, kayaking).

Our team is proactively recruiting enthusiastic biologists who have experience with British Columbia's aquatic and or terrestrial biology. GES is looking for the right team member to support our growing company. We are looking for innovative and passionate biologists who find solutions for our team and or clients in a responsible and sustainable way. The successful team member will help develop and lead field programs, coordinate project deliverables and execution of projects. GES sees this role as an important development opportunity for the successful candidate. GES is focused on the professional development of the team and mentoring new and intermediate staff to become GES team leaders and professional representatives of GES.

The Role:

- Help develop workplans and project budgets.
- Support and lead field programs.
- Conduct data collection, compilation, analysis and reporting.
- Conduct fish and wildlife habitat assessments.
- Fish and Amphibian salvage.
- Bird nest sweeps and surveys.
- Water quality sampling.
- Environmental monitoring.
- Support with writing and submitting permits and authorizations.
- Travel to remote locations and experienced driving ATV/UTV and boats.
- Travel to remote locations via float plane and or helicopter.

Requirements:

- M.Sc. or B.Sc. in biology or equivalent.
- R.P.Bio designation or ability to acquire designation.
- Current knowledge of BC fish and wildlife species and ecology.
- Current knowledge of BC and Federal legislation, government agencies and permitting procedures.
- Field skills in aquatic and terrestrial biology.

Assets:

- Committed to undertaking training to further skills in environmental monitoring, studies, and leadership.
- Excellent written and verbal communication skills.
- Experience with MS Office applications and GIS considered an asset.
- Experienced and/or interest in sampling of various environmental media.
- Positive attitude towards implementing health and safety systems. Level 1 First Aid, H2S Alive, etc. considered an asset.
- Willingness to travel for work and a valid BC class 5 driver's license.

Employment Benefits:

- Job Type: Permanent/full time
- Pay Range: Competitive salary
- Benefits: Extended healthcare, long-term disability and RRSP contribution matching
- Vacation: TBD

Application Process:

Only candidates currently resident and legally able to work in Canada will be considered for this position. An initial interview will be organized for selected candidates. Please submit your resume and cover letter to jesse.anaka@gitxaalaenterprises.com
